Frequently Asked Questions (FAQs)

Q1: How often should I descale my Philips Xelsis?

A1: The frequency of descaling depends on your water hardness. The manual usually recommends descaling every 3 months for hard water and every 6 months for soft water. You should always follow the guidelines in your specific manual. Using filtered water can extend the time between descaling cycles.

Q2: What type of milk is best for the LatteGo system?

A2: The LatteGo system works best with fresh, cold cow's milk. Avoid using pre-frothed milk, powdered milk, or soy milk (unless specifically stated as compatible in your model's manual). Cold milk ensures optimal frothing consistency.

Q3: My coffee tastes weak. What can I do?

A3: Several factors can contribute to weak coffee. You can try: increasing the coffee strength setting, using a finer grind size, ensuring the coffee beans are fresh, cleaning the brew group, and/or ensuring your water reservoir is full.

Q4: My milk froth isn't creamy enough. What should I check?

A4: Ensure you're using cold, fresh milk. Check the milk level in the LatteGo system; insufficient milk can lead to poor frothing. Also, clean the LatteGo thoroughly to remove any milk residue that may be obstructing the frothing mechanism.

Q5: How do I clean the brew group?

A5: The manual will provide detailed instructions specific to your model. Typically, it involves removing the brew group (often with a simple twist and pull), rinsing it under running water, and ensuring it's thoroughly dried before reinstallation.

Q6: What should I do if my machine displays an error message?

A6: Consult the troubleshooting section in your Philips Xelsis manual. This section often provides detailed explanations and solutions for various error codes. If the problem persists, contact Philips customer support.

Q7: Can I use pre-ground coffee in my Philips Xelsis?

A7: While most Philips Xelsis models are designed for whole beans, some may offer a bypass for pre-ground coffee. Consult your manual to see if this feature is available and follow its instructions carefully. Using the wrong type of coffee can damage the machine.

Q8: Where can I find replacement parts for my Philips Xelsis?

A8: You can usually find replacement parts through Philips' official website or authorized retailers. Be sure to specify your machine's model number when searching for replacement parts to ensure compatibility.
