Checking Fluids

- **Engine Oil:** Regularly check your engine oil level using the dipstick. Change the oil and filter according to the recommended intervals specified in your owner's manual (or a reputable online resource). The type of oil to use should also be noted in your manual or a similar document.
- **Coolant:** While the CB185S is air-cooled, it

still utilizes some lubrication, so keeping the chain lubricated is vital.

- **Brake Fluid:** Inspect brake fluid levels and condition. Replace as needed.

Inspecting Key Components

Starting Problems

If your CB185S is having trouble starting, several things could be the culprit:
